INDEX TO VOLUME XXXIX.

SUBJECT INDEX.

A

Abrasive Papers, 366.
Acetylene and Welding Interests, Co-operation of, 6.
Alloy Cast Iron, 319, 337.
Alloy—No. 12—Effect of Melting and Pouring Conditions upon the Quality of, 285.
Alloy Steel Castings, General Characteristics of, 113.
Alloy Steel, Manufacture of, 82.
Alloys, High-Temperature Resistance, Laboratory Experiments on, 161.
Alloys, Iron Manganese, 428.
Alloys, Mechanical Properties of Iron Silicon, 14.
Altos Hornos de Vizcaza, Bilbao, Spain, Works of, 375.
Aluminium Alloy Castings, 444.
Aluminium and Aluminium Alloys with Chlorine, Note on the Treatment of, 165.
Aluminium Founding, Problems in, 55.
American and European Iron and Steel Conditions, 466.
Analysis of Cast Irons and Iron Foundry Raw Material, Notes on the Routine of, 117, 137, 145, 187, 212, 284.
Apprentices, The Training of, Past and Present, 379.
Armstrong College, Metallurgical Department of, 207.

B

Bath Tubs by the Jar Ramming Method, The Moulding of, 111.
Birmingham University, Metallurgical Department of, 58.
Blast-Furnace Gas, Comparison of Most Important Methods of Cleaning, 26.
Blast Furnaces at the Old Works of the Santon Ironworks Co., Ltd., New, 183.
Blast Furnaces, Charging, 188.
Blast, Measurement of the Cupola Air, 201, 451.
Brass Turnings and Buffings, Economical Melting of, 78.
Bricks, Spalling of Furnace, 222.
British Cast-Iron Research Association, 313, 335.
British Facilities for Foundry Training, 7, 30, 58, 73, 206.
Bronze Reliefs, A Set of Cast, 456.

C

Canister, A, 456.
Casting, A Good Clean, 71.
Casting, A Simple, with Some Unique Features, 344.
Castings, Defects in, 384.
Castings for "Nowt," 401.
Castings for Severe Service, Steel, 4, 31.
Castings, Precision, 180.
Cast Iron, Control of, in the Jobbing Foundry, 379.
Cast Iron, Eutetic, 413.
Cast Iron, Evaluation of Properties of, from Formulæ, 281, 343.
Cast Iron for Locomotive Cylinders, 92.
Cast Iron, Graphite in Grey, Its Influence upon the Mechanical Properties, 133, 377, 395, 427, 433.
Cast Irons, Grey, Heat Treatment and Volume Changes of, between 15 deg. and 600 deg. C., 299, 315.
Cast Iron, Heat Treatment of, 445.
Cast Iron, Making in the Electric Furnace, 39.
Cast Iron, Malleable, Effect of Various Elements on, 283.
Cast Iron, Manufacture of High-Quality, 448.
Cast Iron, The Theory of, 223.
Cast Iron, Various Claims for Producing High-Class, 408.
Cast Iron, Volume Changes, 366.
Cast Steel, Mechanical Properties of, at Elevated Temperatures, 341.
Cast Steel, The Shrinkage of, 47.
Cementation of Steel by Special Manganese Alloys, 426.
Cleaning Castings, Hydraulic Method, 267.
Competition, A Short Paper, 379, 401.
Contraction and Internal Strains, 402.
Converter for the Production of Steel Castings, A Note on the Side-Blown, 305.
Co-operation of Acetylene and Welding Interests, 6.
Copper Industry, The United States, 432.
Copper Position, The Standard, 104.
Copper-Rich Alloys, Die-Casting of, 167.
Copper Scrap Shortage, The, 268.
Copper Stocks, Refined, 399.
Copper versus Lead—The Roofing Problem, 114.

Correspondence:—

Alloy Additions in Cast Iron, Their Cost, 464.
